OPPORTUNITIES FOR ALL

The exhibition will illustrate the history of this historic line and show how it was brought back to life by a small group of volunteers after closure by British Railways in 1958. It will show the great strides that have been made since that time, the services presently offered by the Bluebell Railway and the steps being taken to reconnect the line with the town. There will also be opportunities to meet current Bluebell volunteers and to learn about how you can help us to achieve our aims.
